Questions

1. The main reason for requesting a reading is in the hope that what I learn will further empower me in my effectiveness as a priest and teacher. I have pondered on what questions to ask and my biggest questions are about the future rather than the past and I understand a reading is not a forecast. I have expended considerable energy in helping to build our 'community' in Castlemaine and I wonder often about what will become of this community and its resources after I shuffle of this mortal coil. I feel very strongly that it is time now to put effort into attracting more young people into our community and reconnecting them to Christ; and to find and teach a successor or successors. Perhaps there is something in the Akasha from my past that will shine a light on the way forward? I am also keen to understand my previous relationship with Diane my wife and life partner. Ours is a challenging and rewarding marriage as we try to negotiate equality in our decision making and cohabitation. And finally I wonder about my connection to 'The Brotherhood' now and in the past, what they want me to know and how I can strengthen my connection to them and to Christ, so as to more effectively bless, heal, forgive and teach those who are drawn to our community.
